Ibm Usb Serial Parallel Adapter 22p9036 Driver Windows 7

Login as guest with the password guest and choose USB Serial/Parallel I can't get the IBM Surepos (aka Toshiba) 4610 receipt printer to work on Win 7 32bit.. Windows: No driver installation is necessary for Windows 10, 8 1, 8, or 7 Drivers automatically when the Plugable USB to RS-232 DB9 Serial Adapter is plugged in.. It connects with a usb-serial adapter When it prints, it spits out gibberish Does anyone have experience with these? Thanks for all guidance and wisdom.
